An icon, re-imagined

How do you improve on your most iconic projector series? Go beyond what everyone believes is possible, that's how.

The Christie® M 4K RGB Series re-imagines and reinvents the rugged and reliable M Series industry workhorse with innovative, cutting-edge RGB pure laser technology.

Boasting 25,300 lumens in an very small form factor, the M 4K25 RGB and M 4K+25 RGB models offer 4K UHD (3840 x 2160) and 4K+ UHD (3840 x 2400) resolution, quiet operation, plus double the color, and quadruple the resolution of our legacy M Series.

With a field-replaceable laser optical system (LOS) and the ability to maintain up to 50,000 hours of continuous light output at 60% brightness, the M 4K RGB Series enables excellent performance in the most demanding and long-life applications.

Why choose the M 4K RGB series?

- › An expanded color gamut that produces ~98% of the Rec. 2020 color space for rich, vibrant and true-to-life visuals.
- › Our TruLife+™ electronics platform provides 'all-in' connectivity, eliminating the hassle of removable option cards.
- › Electronic color convergence (ECC) allows you to select red, green, or blue individually and converge via remote control.
- › Compatible with legacy M, J, and Crimson Series projector lenses and the legacy M Series rigging frame.
- › Our proprietary LiteLOC™ technology automatically manages brightness over time in higher ambient temperatures to ensure your presentation is the same as day-one.
