1.8 mm Series
XVA-1.8S-IN

Available for Rent or Purchase from Nationwide Video

Every detail of the Theatrixx Totem has been designed to ensure maximal impact and delivery of your message in a clear and appealing way. he Theatrixx Totem is a standalone, fully autonomous digital signage display. It can be used either has a free-standing structure (with optional locking casters) or as a digital power installed to a wall or suspended from the ceiling in any orientation. Its direct-view LED display ensures readability even in bright environnements, and a strong plexiglass cover protects its surface against long term damage. Each Totem can be connected to WiFi and loaded with new content with just a few clicks. A user-friendly PC application allows the management of your fleet of Totems on a local network, and creating new slides is as easy as designing a PowerPoint slide show. The software also provides detailed logging such as play counts, easily exportable to Excel. Totems can even be controlled from iOS or Android devices, and an optional, subscription-based cloud platform allows the handling of a larger fleet of device from anywhere in the world.
